Assured.

The work of the committee and citizens in behalf of the proposed new opera house and Masonic temple has progressed in a most satisfactory manner to the promoters of this very worthy enter-

prise and to the people at large, to all of whom its success will bring a benefit in various ways. So well has the project prospered that about \$3,000 of the stock has been taken by twenty-three subscribers, all but five of whom are citizens of Eschscholtz. The com-

of those who have taken stock in the new building are: Geo. C. Atkinson, John B. Atkinson, Walter S. McGary, W. C. McLeod, James R. Rash, N. I. Toomba, M. Cain, Charles Cowell.

THURSDAY, MAY 10, 1900.

Dr. Will P. Ross' election for delegate to the Republican national convention went through without a bobble.

Ex-Gov. BRADLEY's magnificent fight for "civil liberty" is calling fourth praise from every quarter. And he gives no quarter to the enemies of the ballot.

The lying correspondent of the yellow newspaper continues to hound Governor Taylor at every turn and to manufacture the most sensational reports. His imagination can concoct. One of these days a Goblin will get him if he don't look out.

In 1865 Senator Hoar said, speaking of the tree planted by the first American settlers: "Its boughs hang over the Pacific; and in time—in good time—it will send its roots beneath the waves and receive under its vast canopy the islands of the sea."

It will be seen from the communication from Paris, published in another column that the insurgent forces in the Philippines are still looking to Bryan and other allies in America to finally get Aguinaldo out of trouble—when Bryan is President of America and the Islands of the Seas.

DURING the year 1899 there were 68 railroads with 9,041 miles of track in the hands of receivers. During the last Democratic administration the average for three years 1894-96 was 171 roads in hands of receivers with 39,383 miles of road. Something seems to have happened since these disastrous years to give an impetus to railroading—the safest business barometer. It is a safe guess that railroad men will not wait for a change from the present conditions of the country's business.

THERE seems to have been too many Roses in the Hopkins district convention for our friends, the Democratic newspaper correspondents. Two men of the same name were too many for these careful writers, and about two to one of the Democratic newspapers have reported that W. H. Rosa, colored, was elected one of the National delegates from this district. Mr. H. Rosa was secretary of the district convention, but Dr. Will P. Ross was chosen a National delegate. Both are of Hopkins county.

"APPLE MARY" was arrested for begging in New York the other day, and a basket of rubbish she carried was found to contain about twenty-three pounds of money, mostly in pennies, which she had saved. It is said she can write her check for \$75,000, all saved from the slow accumulation of forty years. It is not well to be pennurious or miserly, but the free-handed wage-earner who spends every month all he earns, might learn a valuable lesson from "Apple Mary's" savings bank account. Our own miners and railroad men who always have money could easily have a bank account by the exercise of a little self denial and wise economy. There may be some rainy day, and this is a good thing for the housewives to think of.

NEXT Thursday the Republican State convention meets at Louisville. Hopkins county and every county in Kentucky should and will have good delegations there. If it should turn out that the supreme court has down a decision on Monday favorable to the people of Kentucky, and the Goebel-Beckham forces are thrown into what would be their utter confusion, what a time of rejoicing there would be. If in their wisdom the supreme judges decide they have no jurisdiction all Kentuckians will bow before the technical necessities of technical law and set about to right their wrongs at the polls in a yet more decided manner than they asserted themselves in favor of civil liberty at the last November election.

of civil liberty at the last November election.

## SAMUEL CRUMBAKER.

Hopkins County Boy Named for Samuel Crumbaker, Ind.

The following, from the Sunday Evansville Courier, tells a story of political victory for Samuel Crumbaker, son of our esteemed and worthy county man, Mr. Jacob Crumbaker, one of our most prosperous farmers. Mr. Crumbaker has been singularly fortunate in his political career in Indiana. Here is the story:

The Republicans of Vanderburg county met in county convention at Cook's park, Saturday morning at 10 o'clock for the purpose of nominating a county ticket. The feature of the convention was the turning down of A. J. Clark for State senator and the nomination of Samuel Crumbaker for that office. The fall of Clark was something fearful to contemplate.

For State senator the name of Samuel Crumbaker and A. J. Clark were the only ones named. Only one ballot was necessary to decide the choice of the convention. The vote stood as follows: Crumbaker, 234; Clark 244. It was a close shave for Crumbaker, but it was the victory of his life.

## Bordley News.

Bordley, Ky., May 8.—Mr. John T. Pettit, of the Hearn neighborhood, who has been very ill for some time, is still in a bad condition. The doctors are in doubt as to whether he has spinal meningitis, or whether the trouble is entirely confined to his brain.

John Lipford, of the Hearn neighborhood, is very ill with typhoid fever.

Lightning struck the telephone line between this place and Sturgis Wednesday night, and Mr. Mottie Hammock was at the phone, shocking her lightly.

Mr. Sheldon's house burned down Saturday at 11:30 a. m. He is experiencing bad luck as his house was insured in full. John S. Hammock, of this place, has bought Jordan A. Giles store at Sturgis. Mr. Hammock is an honest dealer and well known merchant. James McChord came home one night last week and found a big black dog in his yard, and the dog tried to bite him, so he ran and the house and got his gun and shot at the dog. His wife thought he had shot himself, and she fainted. A physician had to be summoned. Tobacco plants are looking fine and some farmers say that they will be able to plant by the 10th. A large portion of the corn crop has been planted and is looking well. C. W. C.

**CURED A RUNNING SORE.** "I had a bad running sore on my breast for over a year," says Henry Richards, of Wilkesville, Mo., and tried a great many remedies, but got no relief until I used Banner Salve. After using one half a box I was perfectly cured. I cannot recommend it too highly, and will never use without it in the future." Campbell & Co.

## A Joke on Them.

Uncle Oscar Stevens tells a good one on the L. & N. yard crew. Tuesday afternoon they went to Hecla after a loaded car. They hurriedly coupled it on the rest of the train, and when they reached the yard they found that the load consisted of a hen and a brood of chickens. George Hooser was the first to hear of their astonishment, while Lawrence Kilroy, telephoned for the owner to come after his property. We did not learn whether they charged freight on them or not.

G. Cleveland: "Don't let your head be turned by such foolishness."

## This Man Gets a Texas Bride.

Hopkinsville, Ky., May 6.—News has been received in this city of the marriage of Mr. Frank M. Quarles and Mrs. Anna I. Peay. The ceremony was performed Thursday morning at the home of the bride's brother, Mr. R. E. Lewis, in Ennis, Tex. Mr. Quarles left Hopkinsville, last week ostensibly for a business visit to Bowling Green, and his acquaintances had no intimation of the real nature of his trip.

## Nervous Prostration.

I had nervous trouble for years, which at times completely prostrated me and made life not worth living. I tried many physicians and no end of nerve and other remedies without relief. Mr. M. J. Crews, merchant, Maioy, Iowa, persuaded me to try Morley's Sarsaparilla and Iron. The very first bottle went to the right spot, for I felt a complete change and now, after using six bottles in all I am perfectly well.

Sold by agent in every town and by Campbell & Co.

### Sunday-School Institute.

Prof. E. A. Fox, of Louisville, will conduct a Sunday School Institute at the M. E. Church, South, May 16th at 7:30 a. m. Prof. Fox is the secretary of the Kentucky Sunday School Union and is one of the leading men in this work in the state. Every one who is interested in Sunday School work should try to make it convenient to attend. Remember 16th and Thursday May 17th. The following will give an idea as to what the Institute is:

1. What it is—It is not a place for long, set speeches. In fact, it is not a place for speech-making of any kind.

2. It is a school of methods. It is educational along both the intellectual and spiritual lines. It is a conference of pastors, superintendents, teachers, parents, and others interested in Sunday School work.

3. The Sunday-school teacher needs to know what to teach, how to teach it, and how to do it in such a way as to bring God's blessing upon the Institute.

The Institute, in some measure, supplies this need.

The conductor uses a blackboard and gives full outlines of all work done; hence every one should come with pencil and paper.

Earlington people are certainly fortunate along religious lines of late. Last week the Holiness Association closed, next long a protracted meeting will begin, then on the 16th inst., the District Conference will begin, and in June a protracted meeting will begin at the M. E. Church, South. Our people are certainly well fed along spiritual lines.

## PUSHING HIS ADVANTAGE.

Lord Roberts Evidently Losing No Time in Pressing the Retiring Boers.

## APPARENTLY MOVING IN FULL FORCE.

The British have a better country to traverse and are likely to be considerably harassed before they capture their next objective.

London, May 2.—The war office has published the following dispatch from Lord Roberts, dated Vet River, Saturday, May 5, 7:15 p. m.:

"I marched here today with Poles' division, Hordwood's, and Wavell's brigade, of the seventh division, are two miles to the rear. Maxwell's brigade, of the same division, is the same distance to our right.

## Bivouacking Near the River Vet.

"The enemy are in considerable strength on the opposite bank of the river. Our guns engaged theirs for some three hours without our being able to force a passage of the river, but shortly before dark the mounted infantry, under Gen. Hutton, turned the enemy's right, and in a very dashy manner, pushed across the river, under heavy shell and musketry fire.

"We are now bivouacking for the night within three miles of Vet River. Our casualties, I hope, are not numerous.

## The Enemy Flee.

"Hamilton was taken yesterday, and succeeded in presenting a junction of two Boer forces by a well-executed movement by some of the Household Cavalry, the two Lanciers, and Kitchen's horse, which carried a body of the enemy, and inflicted serious loss. The enemy fled, leaving their dead on the field and their wounded to be attended by our doctors.

"McDonald's Highland brigade dislodged the enemy on the night bank, under cover of the naval guns, in which operation the Black Watch distinguished themselves, and were very skillfully led.

"Hamilton was advancing this morning to a difficult drift over the Kleinfontein river.

## Warren's Brigade Heavily Engaged.

"Hunter reports that Warren's brigade was heavily engaged this morning two miles north of Tooten. The enemy's position was quite four miles long, and strongly held. He states that our men marched unopposedly, and carried ridge after ridge in grand style.

"Casualties in this force, in Hamilton's and Hunter's, will be reported as soon as possible.

"Capt. Miller, who was taken prisoner near Taba N'Cho, has been sent to Middelburg camp by the enemy, with a severe wound in the abdomen.

## Recently Captured by the Boers.

"Brabant reports that one sergeant and three men were captured, on May 5, while on patrol, and that one of them, who had been brutally ill-treated and left for dead by the Boers, was found the following day.

"Lieut. Lilley, Victoria mounted rifle, reported missing, was found at Brabant's dangerously wounded, and has been most carefully attended by the Netherlands' ambulance."

## The Fight at the Vet River.

Yesterday the British, after a long march, encountered the Boers holding Vet river with six guns, two being of long range. An artillery duel ensued. Meanwhile Gen. Hutton, after a sharp engagement, crossed the river on the left just before sunset. The Boers retreated during the night.

## An Artillery Duel.

Gen. Pole-Carew started, yesterday, on a 10-mile march. He first made contact with Boers holding the river at 1 p. m. The British soon had two lateral positions in the action, and later they added two more, and the Boers were driven back.

## JAMES NETTLES HANGED.

The Governor met and to Austin interviews and a 10-mile march.

St. Louis, May 8.—James Nettles, colored, convicted of the murder of Samuel W. Mann, a St. Louis street car conductor, July 4, 1894, was hanged Monday morning.

The execution took place at 9 a. m., and though the man's neck was broken by the fall, he was not pronounced dead until 10 minutes had passed. The body was then cut down and carried into the morgue, where Coroner Lloyd held a post-mortem examination on him later.

## THE GEO. M. PULLMAN ESTATE.

Doubtful in the hands of the Executors. Who Will Be Well Compensated for Their Services.

Chicago, May 8.—The final report of the executor of the estate of the late Geo. M. Pullman is expected to be filed in the probate court this week. It is believed the report will show that the estate, which amounted to something over \$500,000 when it was first filed, has grown to \$1,000,000 under the administration of Roat T. Lincum and Norman B. Bean, the executors. The compensation of the executors for handling the estate will be more than half a million dollars.

## Probable Good Reports.

New York, May 8.—It was estimated by foreign exchange experts, yesterday, that gold export during the week was likely to be between \$3,000,000 and \$5,000,000.

## SECOND DISTRICT

Combined Opposition to the Goebellie Forces Could Elect a Congressman.

## SHOULD UNITE IN ONE STRONG EFFORT.

We trust that the opponents of Goebellism, that is, the friends of popular government in the Second district—gold Democrats, silver Democrats, Brown Democrats, Populists and Republicans, will unite in an effort to defeat any nominee for Congress named by the Goebellie organization. We call the attention of the free-dom-loving citizens of the Second district to the action of the Goebellie Democracy in the Seventh district, and to this proposition:

"Be it further resolved, That no person be allowed to participate in said primary who did not vote the regular Democratic ticket in the last election."

This is to be the test of Democracy, as it is known in Kentucky today, and the dominant party in the Second district is large. Every true Populist is an enemy of the Goebellie election law and a friend to true government. The Independent Democratic vote in the Second district is the controlling element. It can give the victory to the candidate embodying the issue of civil liberty. The counties comprising the Second district are given herewith, with the vote cast in these counties in the State election for Governor in 1895:

intolerance, the policy of ostracism, is merely the manifestation of Goebellism in its last extremity. There is no one way of bringing the present organization of the Goebellie Democracy to a realising sense of the folly of its political course, and that is by repeated defeats. Let the officeholders understand that a nomination obtained from such an organization means the defeat of the nominee, and we will have no more test oaths suggested at the beginning of a political campaign in Kentucky.

H. D. Allen, present member of the Second district was elected to the Fifty-sixth Congress, receiving 8960 votes against the combined vote for Fowler, Republican, 3,011, Independent, and James, Populist, 6,672.

The Republican party of the Second district is united, aggressive and determined. The Populist vote in the Second district is large. Every true Populist is an enemy of the Goebellie election law and a friend to true government. The Independent Democratic vote in the Second district is the controlling element. It can give the victory to the candidate embodying the issue of civil liberty. The counties comprising the Second district are given herewith, with the vote cast in these counties in the State election for Governor in 1895:

Counties	Goebel	Taylor	Boyer	Blair
Cherokee	2,197	2,471	251	64
Cherokee	3,491	2,474	251	64
Hopkins	2,307	2,471	251	64
Madison	2,454	2,471	251	64
Madison	2,307	2,471	251	64
Madison	2,307	2,471	251	64
Madison	2,307	2,471	251	64
Madison	2,307	2,471	251	64
Madison	2,307	2,471	251	64
Madison	2,307	2,471	251	64

Total: 18,112 18,590 979 251

This district, therefore, gave

Mr. Goebel a plurality of but 1,762, with 984 for Brown and 553 for Blair. The majority for Goebel over the combined opposition is but 819.

The Expanding Market For American Coal.

Europe is unquestionably short of coal. Some authorities contend that the supply there is practically exhausted—which we doubt. It does not seem probable that this can be true. Nevertheless the European manufacturers are seeking coal from mines outside of their own countries, and the shortage in Germany alone is reliably estimated at 4,000,000 tons. A single firm at Frankfurt, in Germany, has recently made known its desire to contract for 500,000 tons of American coal if, in fact, it has not already done so. Great Britain's need of foreign

coal may be even greater than Germany's. The best coal obtainable in England is reserved for the navy, and manufacturers are facing a more serious scarcity than ever before.

The situation throughout Europe, indeed, makes plain that the owners and operators of American coal mines are in possession of properties of steadily increasing value. Their market is bound to be as wide as the world. Nobody has found anything to replace coal as a factor in general industry. It is yet the single reliable fuel, and its consumption is constantly increasing with the growth of trade and commerce. The fact that the European supply is growing shorter makes the outlook for the American product very bright indeed. The American coal mines may count with confidence upon a continuously expanding market both at home and abroad—Commercial.

Are you a subscriber to THE BEE? You should be.

No business can possibly be successful that is not advertised.

This is a sweeping statement, but it is true. There are some merchants in this community whose experience apparently contradicts the statement.

The contradiction, however, is only apparent. If they have attained any degree of success they have advertised. They have let people know what they had to sell, what they were here for and what they proposed to do. Just in proportion to the thoroughness with which they have done this and met the conditions of their competitors they have succeeded.

If they have used the newspapers they have worked with the tools so far as getting publicity concerned. If they have worked without the newspapers they have been handicapped and have not attained the highest possible measure of success.

A little seed planted in fertile ground, carefully watered, will thrive and grow. A properly advertised business, in any industry, will also thrive and grow. The law of the market is the same in one case as the other.
